DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tim Xia on January 20, 2009.

The application has been amended as follows:

Claims 1-41 and 50-57 are cancelled.

Allowable Subject Matter

Claims 44-49 and 58-65 are allowed.

The following is an examiner's statement of reasons for allowance.

The primary reason for allowance of independent claim 44 is the inclusion of the limitations regarding a confining means to confine biological cells in a confinement region, wherein the confining means comprises a first filter and a second filter, wherein the first filter is positioned proximate to a first connection channel and the second filter is positioned proximate a second connection channel, and the first and second filters are substantially parallel to each other and each filter comprises an array of posts spaced

apart from each other not to allow biological cells to pass through it. These limitations as found in combination in the claim are not disclosed or suggested in the prior art.

The primary reason for allowance of independent claim 45 is the inclusion of the limitations regarding a substrate comprising a confining means to form a confinement region in a chamber to confine biological cells, wherein the confining means comprises an array of posts, and such that in operation, a stream of substance flows from an inlet port through a first connection channel, the chamber and a second connection channel to an outlet port, and wherein the substrate further comprises an alternate port and a third connection channel for allowing seed biological cells to perfuse only inside the confined region. These limitations as found in combination in the claim are not disclosed or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
